## SUMMARY

Recent B.Com (Computer Applications) graduate with a strong interest in software development and database management. Proficient in Python, JavaScript, and MySQL, with a solid grasp of programming concepts and a drive to keep learning. Seeking an opportunity in a growth-focused organization to kickstart my career and contribute meaningfully as a developer.

Passionate about building user-centric applications and solving real-world problems through code. Eager to collaborate with experienced teams and gain hands-on experience in real-time projects.
